The Senate is voting next week on health care, and it ain't pretty. Call **1-844-586-9567** and tell your **Senators to vote NO on stripping away coverage & increasing costs for millions of Americans.**

CALL  
**1-844-586-9567**  
NOW

ADVOCACY ALERT

Dear Friend,

Health care has been all over the news this week. One day, it looks like the bad Senate bill is dead. The next day, it's back again as repeal-only. That now appears to have stalled...or has it?

**The bottom line is: Senate Majority Leader Mitch McConnell has called for a vote on health care next week.** And it doesn't matter if it's the Senate bill, House bill, repeal-and-delay, or repeal-only. A vote for *any* of these proposals would mean skyrocketing premiums and millions of Americans losing coverage altogether.

Enough is enough. Will you help us end this madness once and for all? **Call 1-844-586-9567 and tell your Senators to vote NO on any bill that would raise health care costs and strip coverage from millions of Americans.**

Here's what to do:

1. Call **1-844-586-9567** to be connected to your Senator's office. Tell the staff person who picks up that you're a constituent, and that you'd like the Senator to vote NO on the "Motion to Proceed" on health care next week.
2. Next, let them know that you oppose ANY bill that would mean your out-of-pocket costs skyrocket while big drug and insurance

companies pocket billions. That's simply outrageous. They were elected to the Senate to represent YOU, not special interests. They should be working to improve health care, not strip it away from millions of struggling American families.

3. If you want, remind them that you vote, and that you will hold the Senator accountable if they vote to hike health care costs and strip coverage from millions of Americans.

Your calls and letters made a HUGE difference in convincing the Senate to drop their last harmful health care scheme. So please, don't stop now. This is the time to turn up the heat. Even if you've called before, CALL AGAIN.

**Call [1-844-586-9567](tel:1-844-586-9567) and tell your Senators to vote NO on any higher cost, less coverage health care bill.**

Thank you for your tireless efforts to fight this bad bill. We know it's been a long road, but we must stay focused on protecting health care for millions of Americans. When we come together, we CAN win.

Sincerely,

Fred Griesbach
